WITT for gas safety
technology.

HOW IMPORTANT IS SAFE GAS SUPPLY?

ANDREAS HEYER: SENIOR PRODUCT MANAGER – WITT-GASETECHNIK

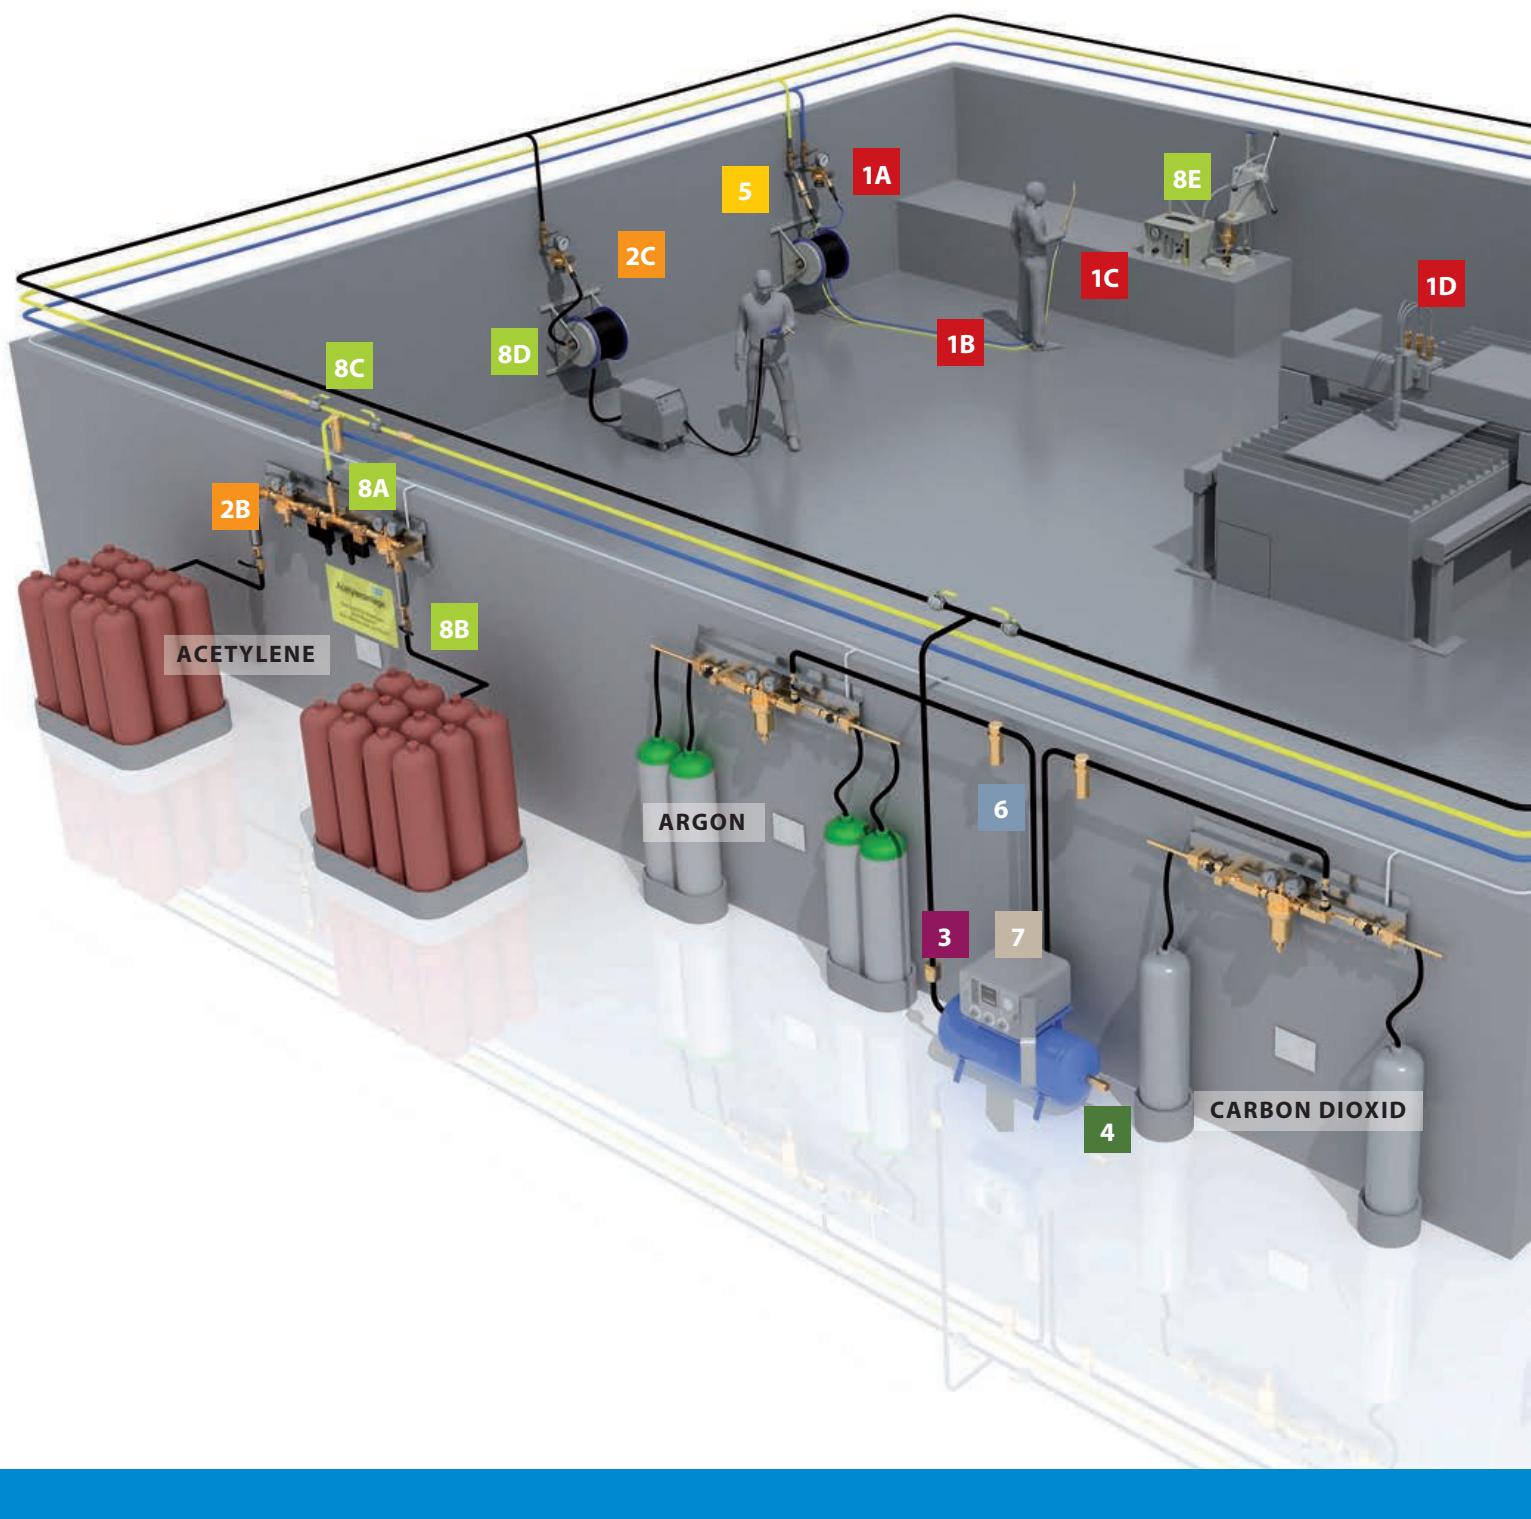

CENTRAL GAS SUPPLY SYSTEMS INCREASE SAFETY AND PRODUCTIVITY!

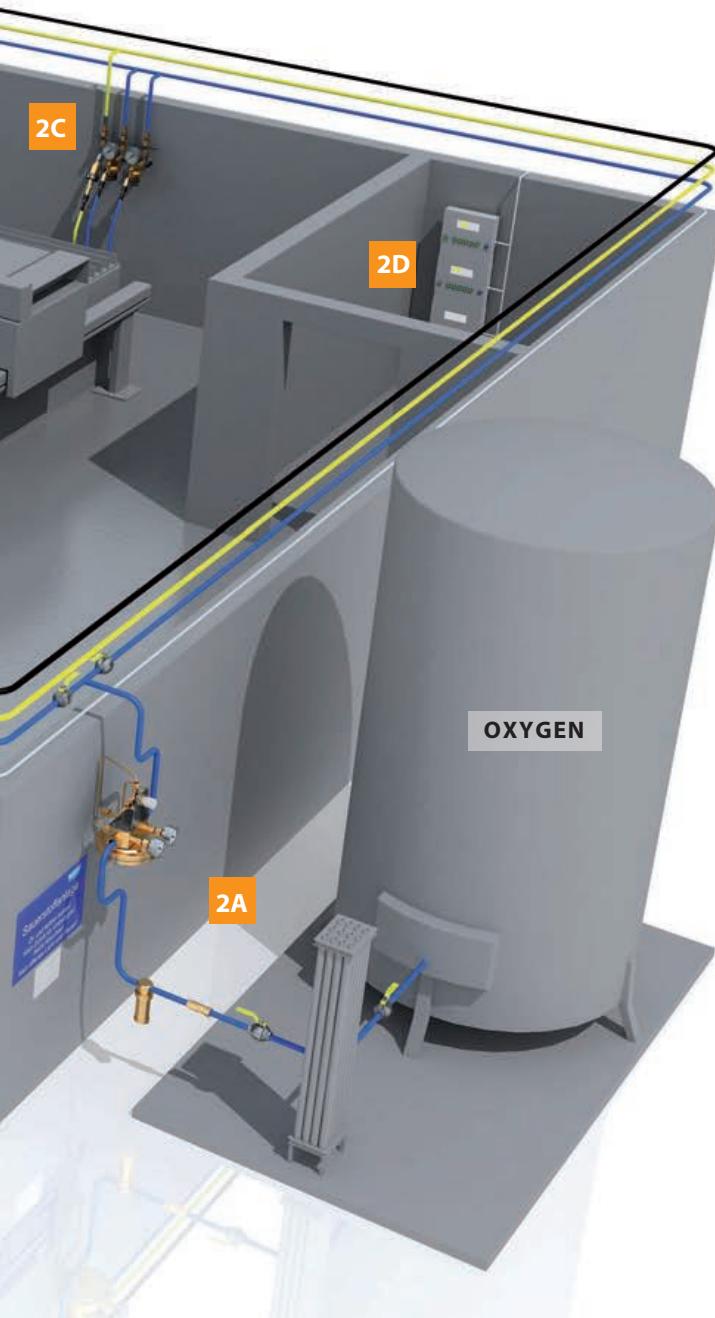

Continuous gas supply, improved safety by less transportation of gas cylinders, more space at the point of use, flexibility and expandability – central gas supply systems offer numerous benefits. Field-proven solutions by WITT ensure the optimal realisation from gas inlet to outlet point, from conception to implementation.

As market leader with longtime experience WITT offers all components for central gas supply systems – gas mixers, pressure regulator stations, flashback arrestors, outlet points, electronic control and special equipment. Complete systems by WITT meet the most challenging requirements ensuring best quality, high flow rates and minimum pressure loss.

Our BAM-tested and certified products set standards. Rely on German quality and contact persons globally.

WITT – CENTRAL GAS SUPPLY SYSTEMS FROM A SINGLE SOURCE!

**1 > FLASHBACK ARRESTORS**

- 1A** For regulators, outlet points, pipelines
- 1B** For hoses
- 1C** For torches
- 1D** For cutting machines

2 > PRESSURE REGULATOR STATIONS AND OUTLET POINTS

- 2A** Dome pressure regulators
- 2B** Pressure regulator stations
- 2C** Outlet points
- 2D** Electronic switch and control

3 > NON-RETURN VALVES**4 > SAFETY RELIEF VALVES****5 > QUICK COUPLINGS**
(for outlet points, pipelines, torches)**6 > GAS FILTERS****7 > GAS MIXERS****8 > SPECIAL EQUIPMENT**

- 8A** Decomposition Arrestors
- 8B** Automatic slam shut valves
- 8C** Ball valves
- 8D** Safety hose reels
- 8E** Test equipment

PRODUCT PORTFOLIO

1 FLASHBACK ARRESTORS

Protection of single cylinders, outlet points or pipelines against reverse gas flow and flashbacks:

- Combination of all safety elements for optimal protection
- Extinguish dangerous flashbacks or backfire
- Avoid explosive mixtures in the gas supply
- Wide product range for all kinds of applications
- For all technical gases
- Installation independent of the orientation
- Long service life due to protection against dirt – via filter at gas inlet
- All connections available
- Available in brass or stainless steel

3 NON-RETURN VALVES

Protection of equipment, pipelines and outlet points against reverse gas flow:

- Avoid the formation of explosive mixtures in the gas supply
- Varying from 0.04–4351 psi and flows between 0.01 scfh – 16697.82 scfh with any wanted connection
- For all technical gases – wide range of applications
- Low pressure drops – using complex valve assembly with low opening pressures
- No leaks – using of a spring loaded valve assembly with elastomer sealing
- Installation independent of the orientation
- All connections available
- Available in brass or stainless steel

2 PRESSURE REGULATORS

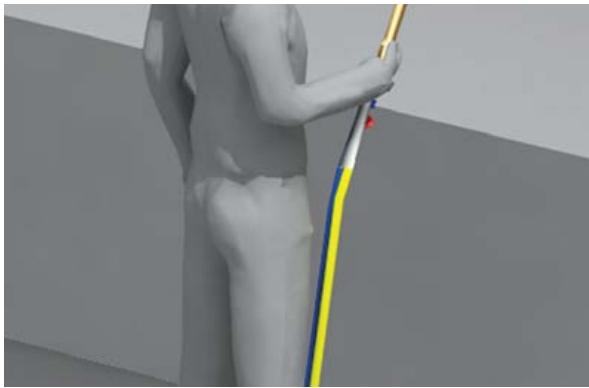

Constant gas flow and control of central gas supplies:

- Continuous gas supply and control of a pipeline
- With manual or automatic change-over
- Completely mounted and tested
- Compact design
- Reduces the risk of accidents

4 SAFETY RELIEF VALVES

Avoiding over-pressure by gas blowdown from pipelines and other equipment:

- Venting of excess pressure to protect down-stream equipment
- Individual opening pressure from 0.07 psi to 650 psi
- Compact size
- Installation independent of the orientation
- Protective dust cap
- Range of inlet connections
- Available in brass or stainless steel
- Also as a smart valve with visual indication of the status and digital signal for transmission to a network

5 QUICK COUPLINGS

Safe and quick connection of equipment:

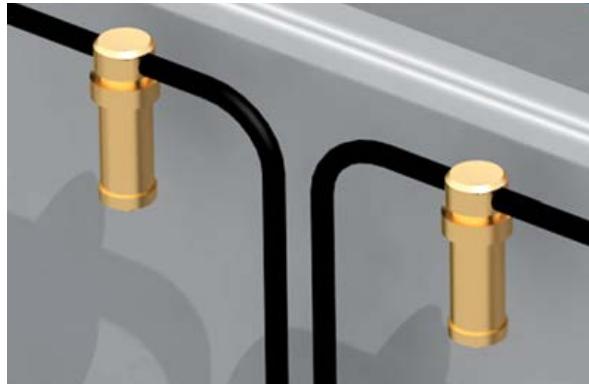

- Lightning fast connection and disconnection of equipment
- Gas-tightness when disconnected
- No build-up of explosive gas-mixtures in the pipe line – because of non-return valve
- No confusion between connections – because of different probes for Oxygen, Fuel and Inert Gases
- Simplest selection of the right body and probe – because of new colour coded probe
- All connections available
- Dirt-filter protects hose coupling and equipment

7 GAS MIXERS

High quality mixing systems for 2 or 3 gases particularly for all areas with sharply fluctuating mixed gas flows:

- Easy operation
- A proportional mixing valve or three single mixing valves provide infinitely variable mixture settings
- Gas mixture withdrawal possible from zero to the maximum flow capacity
- High process reliability
- Independent of pressure fluctuations in the gas supply
- Intermittent gas mixture withdrawal possible
- Splash-proof and robust stainless steel housing
- For flammable gases available as EEx-version with separate control cabinet
- Integrated gas analysis for the control and documentation of the gas mixture production
- Monitoring of the gas supply with alarm

6 GAS FILTERS

Reliable filtration of the finest dirt particles in gases:

- For pipelines and gas outlet points.
Some with condensation outlet
- For particles from 0.5–80 micron
- Diverse applications – useful for many technical gases
- High flow rates
- Extend the service life of downstream equipment – by reliable filtration performance
- Change of filter possible while installed
- Large choice of connections

8 TEST EQUIPMENT

For the testing of all safety elements including flashback arrestors and non-return valves.

- Cost effective
- Only one test rig for all tests
 - Leak tightness to atmosphere
 - Test of non-return valve against low and high back pressure
 - Function of pressure sensitive gas cut off valve
 - Measurement of flow capacity of safety device
- Clear readings
- Robust design
- Maintenance free

THE MOST EFFECTIVE PROTECTION AGAINST OVERPRESSURE

Model	Remarks	Gases / Max. working pressures /Flows					Safety elements		
		Acetylene (A)	Oxygen (O ₂)	LPG (P)	Hydrogen (H ₂)	Natural Gas (M)	Other gases / inert gases	Inlet Gas Filter – depending on connection	Non-return Value (NW)
	SK100-1/-2 body	With automatic cut-off valve	21 psi / 441 scfh	290 psi	290 psi	290 psi	290 psi	290 psi	X X
	SK100-3 body	With automatic cut-off valve	21 psi / 441 scfh	290 psi	290 psi	290 psi	290 psi		
	Keymark coupling	With automatic cut-off valve	21 psi / 441 scfh	290 psi	290 psi	290 psi	290 psi		
	SK100-1 probe		21 psi / 441 scfh	290 psi	290 psi	290 psi	290 psi		
	SK100-2/-3 probe		21 psi / 441 scfh	290 psi	290 psi	290 psi	290 psi		

Application		Model	Remarks	Gases / Max. working pressures / Flows					
				Acetylene [A]	Oxygen [O ₂]	LPG [P]	Hydrogen [H ₂]	Natural Gas [M]	Carbon dioxide [CO ₂]
Gas Filter outlet points		622	Fineness 40 micrometer	21 psi / 2188 scfh	232 psi	232 psi	232 psi	232 psi	
Gas Filter for pipelines		77 with bronze element	Bronze filter element, fineness 5 or 50 micrometer, condensate drain	21 psi / 11013 scfh	580 psi	725 psi	725 psi	725 psi	362 psi
		77	Nickel chromium filter element, fineness 0.5, 7-10 or 40 micrometer	21 psi / 16166 scfh	435 psi	725 psi	725 psi	725 psi	362 psi
		625	Condensate outlet, fineness 40 micrometer	21 psi / 16166 scfh	145 psi	362 psi	362 psi	362 psi	
Stainless Steel		HD Gas Filter	Nickel chromium filter element, fineness 30 or 80 micrometer	362 psi	725 psi	4351 psi	4351 psi	4351 psi	1450 psi
		LE 6	Bronze filter element, fineness 15 micrometer		435 psi	580 psi	580 psi	580 psi	362 psi

			For all technical gases				
	Model	Remarks	Minimum inlet pressure	Maximum inlet pressure	Maximum flow capacity	Mixing range	Mixing precision
	KM 100	For 2 or 3 Gases. Option: mounted on buffer tank	29 psi	290 psi	1517 scfh	0-100 %	better +/- 1% abs.
	MG 50 - MG 500	For 2 or 3 Gases. Option: mounted on buffer tank	43 psi	290 psi	3530 scfh - 33180 scfh	0-25 % or 0-100 %	better +/- 1% abs.

Application		Model	Remarks	Gases / Max. working pressures / flows					
				Acetylene [A]	Oxygen [O ₂]	LPG [P]	Hydrogen [H ₂]	Natural Gas [M]	Flame Arrestor [FA]
Decomposition Arrestors		FN12 / FN40		21 psi / 2237 scfh 21 psi / 4200 scfh					X X
Automatic slam shut valve		HDS 17	Pressure regulated	362 psi / 6883 scfh					
Ball valve		DN6 – DN100					Pressures upon request		
Hose reel		DS Automatik	Safety hose reel for fuel gases and oxygen. Different sizes available	X	X	X	X	X	
Test equipment		722 / 743	For flashback arrestors and non-return valves						

OUR PRODUCT RANGE

GAS CONTROL EQUIPMENT

- Gas mixing systems
- Gas metering systems
- Gas analyzers
- Leak detection systems
- Gas pressure vessels
- Engineering of customized systems

GAS SAFETY EQUIPMENT

- Flashback arrestors
- Non-return valves / check valves
- Quick couplers
- Safety relief valves
- Stainless steel devices
- Gas filters
- Pressure regulators
- Outlet points
- Lance holders
- Ball valves
- Automatic hose reels
- Test equipment
- Accessories
- Customized safety equipment

WITT-Gasetechnik GmbH & Co KG

Salinger Feld 4-8
58454 Witten
Deutschland
